

Violence Against Women & Traumatic Brain Injury

This Forum will present emerging research on and promising practices for supporting self-identified women who have experienced intimate partner violence and/or sexual violence related traumatic brain injury.

Morning Sessions:

- TBIs and Strangulation: Understanding and Recognizing the Hidden Dangers of Intimate-Partner Violence
- Battered, Brain Injured, But Unbroken
- An Indigenous Perspective on TBI and VAW
- Manifestations in the Lives of African American Women: Intimate Partner Violence and Traumatic Brain Injuries
- Head Injury Among Women and Transgender Women Doing Sex Work: What We Know

Afternoon Sessions:

- Working with Women who have Sustained IPV-related TBI
- Healing from an Indigenous Perspective
- Concussion Hits Home
- Best Practises for Inclusion for People with Disabilities in the VAW Sector & Research
- Unforeseen Barriers: Interventions for Women in Shelter
- Introducing the Abused & Brain Injured Toolkit: Understanding the Intersection of Traumatic Brain Injury and Intimate Partner Violence
